Safer Internet Day and Safer Internet Day (in Romania) is global Safer Internet Day and is celebrated every year in February in over 60 countries worldwide. Internet Safety Day is coordinated and promoted by the European network INSAFE - *European Safer Internet Network* within the Safer Internet Plus program of the European Commission . Every year, on the occasion of Safer Internet Day, INSAFE promotes learning to use new online and mobile technologies responsibly and refers in particular to children and their behavior in the online environment.

Safer Internet Day has been celebrated annually since 2003.

#Free
to be...

...creative

...kind

...honest

...yourself

Let's create an
internet where
we are free to
be ourselves

...ourselves
online

...different

...respectful

...happy

Free
to be ME

Exploring identity online

In my opinion, day of safety on the internet is very important because we need to know how to protect ourselves on the internet and choose useful information. Not all sites are good, because behind them are attacks that bring viruses to our devices

Spend quality time on the internet!

Nowadays, technology has evolved a lot, don't forget about internet safety! Take care! Try as much as possible to spend time in nature and enjoy its beauties!
